

1.	Larsen, Gorm	gormlarsen@hum.aau.dk	Department of Communication og Psychology Aalborg Universitet-Cph	Lautrupvang 2B 2750 Ballerup	I've been dedicated to the studies of narratology for at least the last 8 years. Especially I've been working with the act of narration in fiction in light of Bakhtin and a theoretical dialogic foundation. This means an effort to locate and identify the narration – or enunciation – in the linguistic material through a differentiated concept of perspective weaved in the structure of enunciation. The focus has been on the relation between representation of consciousness and focalisation, and on unreliability, which I see in relation to a broad concept of the pragmatic authorisation.
