| Catalan, Zelma | zelmacat2@yahoo.com | Department of English and American Studies Sofia University, Bulgaria | Complex Yavorov bl.25-B, 1124 Sofia, Bulgaria | My academic work is centered on narratological issues. My book "The Politics of Irony in Thackeray's Mature Fiction," due to come out in January 2010, deals mainly with Thackeray's subversive use of various narrative models. I am currently working on a book on Dickens's fictional worlds and have published several articles dealing with the creation of plot in his novels. I am also interested in narrative models in popular fiction, which I teach at MA level, and have two papers (forthcoming) on narrative issues in this genre. |
